Women exchange confidences about their own health and that of their husbands. A man's physical well being is closely watched by a thoughtful wife. It is part of her duty in the world to keep him well. If she sees him running down, she should take measures to stop it. Very few men enjoy being sick. They won't admit even to themselves that they are sick. They will go on losing fiesh and vitality—working too hard—worrying too hard—taking little or no care of their nealth. Maybe they need only a little help to be made well. Maybe a good simple tonic is all they require. Maybe it is something more serious. Whichever it is, it tonic is all they require. Maybe it is some-thing more serious. Whichever it is, it should be attended to. When a man gets really sick, his work stops. He can't tend to business. He loses all he has previously gained. Actual want may stare him in the face. It doesn't pay to get sick, or to stay sick. There's no need of doing either. Dr. Pierce's Golden Medical Discovery will prevent stekness. It is a blood helper and a flesh builder. It restores perfect diges-tion and insures perfect assimilation of a flesh buflder. It restores perfect digestion and insures perfect assimilation of the food. It is a powerful enemy to germs and will search them out in all parts of the body, forcing their evacuation. It has been proven by the written testimony of hundreds of grateful people that she "Golden Medical Discovery" will even cure of per cent of all cases of consumption if taken in its early stages.

The double tragedy took place in South State street, the principal residence street of the city, and when the police reached the spot both girls were found lying dead on the sidewalk in a pool of blood, while in the hand of the murdress was grasped a large revolver. Miss Linnett some two years ago con ceived a singular liking for a young wo

man in Chicago, a neighbor, and at-tempted to take her life because she would not live with her. She was sent to the insane hospital here less than a year ago and was discharged from the institution as cured in December last. Miss Trowbridge was an attendant at the hospital, and had charge of Misa Linnett, who became passionately fond Her great regret in leaving Elgin was that she must leave her friend chind. She returned to Chicago where she remained at her home. Her friends believed her entirely cured of her mental troubles.

PUZZLING PROBLEMS TO SOLVE Party Rate Question, Colorado Rate Demoralization and Others,

Chicago, Ill., April 12.—The general officers of the western roads in cession today struggling with the party rate question, which their general passenger agents have falled to solve. ser agents have failed to solve. The unanimous opinion is that theatrical parties should have special rates, but how to confine the rate to that and at the same time avoid violations of the interstate commerce law is the nut the general officers are trying to crack.

A call has been issued for a special meeting of the Transmissouri committee of the Western Passenger associa tion to be held at Denver, April 16. The meeting will take the question of rate demoralization in connection with the Missouri river-Colorad division. Chairman Caldwell will present a report of his attempted settlement of the trouble, stating that both the Colorado Midiand and the Denver and Gulf refused to allow him to see their books. There will also be a committee report on the effect of Pacific coast tickets, eastbound, on the market at Denver, and another on the effect of the sale of tickets from North Pacific coast points to Denver and return via Billings.

The Canadian Pacific has appealed from the decision of the Western Passenger association that it cannot withdraw a portion of its business from the association agreement without withdrawing all of it. In making its appeal it intimates very plainly that if the last decision is against it there will be no other course open to it buit withdrawal from the association.
